

## **Altar and Fire Attendance Chart**

This attendance chart would be suitable for any Old Testament study. Students build a 12-stone altar as was the rule in the OT by adding a stone each week. For the 13th week of the quarter, place the wood/fire piece on top.

Print page 2 for each student.

Page three contains stones for 2 students. Printing on brown or gray paper is ideal.

Page four has the wood/fire pieces for 4 students. You might print on white paper and color the pieces (or allow older students to color if you have an extra minute somewhere); you might print on orange; or you might print one on orange and one on brown, cut the orange fire out and glue to the brown wood. You might have another idea, too. But if so, please share it with us!

**Serve the Lord with gladness**

**Psalm 100:2**
